Entry Type: Phone call
Company: AEI Consultants

Start: Fri 10/21/2011 11:00 AM
End: Fri 10/21/2011 12:00 PM
Duration: 1 hour

Peter McIntyre called to discuss status of ICAP; John Bustad had asked him to go ahead without him. Peter iterated that John is anxious to start pilot test to determine if HVDPE is viable; if not, another solution will be presented. I communicated that the ICAP was premature and lacked many details, which ACEH will be requesting.
