Subject: Fuel Leak Case No. RO0000014 and GeoTracker Global ID T0600100213, BP #11132,
3201 35th Avenue, Oakland, CA 94619

Dear Messrs. Supple, Ralston, & Sull:

Alameda County Environmental Health (ACEH) staff has reviewed the case file including the most recent correspondence, dated November 11, 2012, the most recent directive letter, dated June 17, 2011, and most recent submitted document entitled *ACEH Low Threat Closure Policy Checklist and Site Conceptual Mode* dated June 28, 2013, prepared by ARCADIS, U.S., Inc. (ARCADIS) for the subject site. The above-referenced document states that additional investigation is required to eliminate data gaps related to down gradient concentrations of potential chemicals of concern in soil vapor and groundwater. ARCADIS stated they would submit a work plan to characterize down gradient soil vapor and groundwater. However, as of this date ACEH has not received a work plan for the proposed investigation.

Therefore, please provide ACEH several dates and times during which a meeting can be scheduled. ACEH staff will select dates and times from your list to arrange the meeting. Please provide the list of available dates and times by July 7 2014.

If your email address does not appear on the cover page of this notification ACEH is requesting you provide your email address so that we can correspond with you quickly and efficiently regarding your case.

Messrs. Supple, Ralston, & Sull
RO0000014

Thank you for your cooperation. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Sincerely,

Keith Nowell
Hazardous Materials Specialist
