Dear Ms. Andrews,

Alameda County Environmental Health (ACEH) has reviewed the First Semi-Annual 2013 Groundwater Monitoring Report dated April 25, 2013 and received July 17, 2013. In the report, TRC "recommends compiling a CSM and closure package for review by the ACDEH in lieu of the soil vapor investigation." ACEH concurs that development of a Site Conceptual Model (SCM) to support closure under the Low-Threat Underground Storage Tank Case Closure Policy is appropriate at this time.

Please submit the SCM to the Alameda County ftp site and Geotracker by September 26, 2013.

Sincerely,

Barbara Jakub, P.G.
