**Subject:** RE: Final Fact Sheet for site RO18

Jerry:

Thank you for the approval of the Fact Sheet, and thanks for catching that typo in the text. We have made the correction you suggested, adjusted the comment period dates on the Fact Sheet to run from Oct 14th through Nov. 13th, 2010, and will be mailing the Fact Sheet out to the distribution list today (Wed.).

Regards,  
Brent

Brent,

You may distribute the Fact Sheet to the mailing list included in our previous correspondence. I did notice one minor typo which should be corrected before mailing. The last sentence in the section titled "Remediation Alternative: Institutional Controls" should be modified as follows:

Current: (b) development of a site-specific health and safety plan for future any future disturbance of subsurface soils.  
Revised: (b) development of a site-specific health and safety plan for any future disturbance of subsurface soils.

Jerry:

Thanks for the response. By now, I assume you received the final fact sheet

I uploaded on Monday (10/11) via your ftp site.

Any estimate on when we can expect final approval of the Fact Sheet? We are preparing our admin folks for the mass mailing to the distribution list and any sense of a likely approval date will help our planning on that end.

Thank you,  
Brent

Brent:

The modified language is acceptable. Please submit the Revised Fact Sheet to the ACEH ftp site. A perjury statement and PE certification should not be necessary for the revised Fact Sheet.

Subject: Final Fact Sheet for site R018

Jerry:

In relation to the former Nestle Oakland facility (R00000018), we have received your comment letter of Oct 6th, 2010, and made the requested changes to the Fact Sheet. The attached version of the Fact Sheet reflects those requested changes, with one minor alteration to the text in the Site Remediation Summary sections, highlighted in yellow. We used the 'residual contamination' phrase to be consistent with language in the remainder of the Fact Sheet.

We wanted to share this edit with you in advance of submitting the document formally to the ftp site.

Please let me know if you are OK with this final Fact Sheet, and then we will submit it for formal approval through the ACEH ftp site. I am assuming perjury statements and PE certification are not necessary for this submittal of the Final Fact Sheet. Let me know if that is not the case.

Once we have ACEH approval on the Fact Sheet, we are prepared to initiate the mailing to the ACEH-provided distribution list, and initiate the 30-day public comment period.

Please give me a call with any questions.

Thank you,  
Brent
