Hello Ken,

You can proceed with signing the deed restriction on your end. I have reserved a time slot at 1:00 pm on Wednesday, February 9 with our Director to sign the deed restriction. Please let me know if you can send the signed deed restriction over with a Notary Public at that time. If not, I can set up a new date and time. Once I get confirmation that the deed restriction has been recorded with the County Recorder, I will send Leroy a message that he can sign the release for the old deed restriction.

Thanks,
Jerry Wickham

Good morning, Jerry. Please let us know when you are ready for us to sign the deed restriction. We will be happy to send the document over with a notary public from our office to facilitate your signing. Also, do you want me to contact Leroy Griffin about executing the termination of the old deed restriction, or would you prefer to handle that directly?

Thanks. Ken

Jerry:

As we discussed yesterday, please find attached the updated and finalized version of the Deed Restriction (incorporating your suggested edits) for the former Carnation Dairy facility (SLIC Case #RO0000018). This document can now be signed by the property owner and ACEH representatives, and filed with the County as required as part of the Risk Management Plan for the Site.

As we discussed, ECM will also submit a final signed copy of the Risk Management Plan to ACEH via the usual ACEH ftp site process.

Please let me know if you have any questions, or need any additional information regarding these documents.

Regards,
Brent Searcy
