

## ANANIA GEOLOGIC ENGINEERING

March 30, 1990

Ms. Katherine Chesick  
Alameda County Health Department  
Hazardous Materials Division  
80 Swan Way, Room 200  
Oakland, California 95641

**SUBJECT: WELL ABANDONMENT**

**AGE PROJECT No. 004-88-059**

Dear Ms. Chesick:

Anania Geologic Engineering (AGE) requests permission to abandon ten wells; nine product recovery wells, PR-1, PR-2, PR-3, PR-4, PR-5, PR-6, PR-82, PR-83, PR-84, and one monitoring well, MW-21, at 1310 14th Street (Carnation Dairy) in Oakland, California. The wells to be abandoned are highlighted on the enclosed map. The wells will be abandoned by over drilling and treming the hole with concrete as specified previously. AGE intends to begin abandoning the wells the week of April 9, 1990. Once AGE receives your approval, a permit from Zone 7 will be obtained.

If you have any questions, please feel free to contact Robyn McKinney at (415) 548-0377 or myself at (916) 631-0154.

Sincerely,  
ANANIA GEOLOGIC ENGINEERING

4/5/90  
Spoke with Mary Scruggs,  
OK'd closure/abandonment  
of the highlighted PR points  
as long as the PR points had  
no free product in them ever.  
(~~They~~ did not have micro-organisms  
put into them ever)
