Mark,

Vijay's project at Craneworks ends April 6th. We are planning to do our work the following week, probably no sooner than Tuesday or Wednesday in case Craneworks needs to clean up. Given the delay, I am requesting another 15 days to perform and report the work, to May 15th.

Sincerely,

Tim Berger, PG
Operation Manager

Tim,
That sounds like a wise decision. Thanks also for the phone call with the heads up. Please use this email to document ACEH concurrence with the extension request and revised due date.
Best,

Mark Detterman

Subject: Request re: Rodding Cleaning Services, 2585 Nicholson Street, San Leandro RO00000020

Mark,

Per my telephone request earlier this week, Versar requests an extension of 30 days to accommodate a delay in field work during a Crane Works overhead crane fabrication project lasting approximately two weeks. Versar believes the delay will substantially improve worker safety for Versar and Crane Works personnel as the project area is small, physically constrained, and Crane Works work involves overhead hoists, iron work, welding and machining which will be going on during our initially intended work period.

Thank you for considering this request. The revised date due for the Soil and Groundwater Investigation Report is requested to be April 30, 2012.

Respectfully submitted,

Tim Berger, PG
