Hi Tim,

Thanks for the update. Do please have it reviewed and the perjury statement signed. I'm not real wed to deadlines, just progress... I'll revise the deadline in Geotracker shortly.

Best,

Mark,

We have completed the field work and are about 90 percent done with the report, which is due to be uploaded tomorrow. However, I did not figure in a review time for my client and counsel, and request until the May 31 to incorporate their review and comment.

The work went as expected, with soil, groundwater and soil vapor samples collected. The data is interesting in some parts, and cleanup warranted in the former dispenser and UST area. As funding holds up I expect to prepare a remedial action plan to follow this report.

- Tim
