Subject: RE: EZ Serve 100877, 525 W. A St., Hayward - Semi-Annual Groundwater Monitoring / SCM / PPS

Joseph,

Thanks for the notice on the coordinated gw monitoring; it should help get a clearer snap shot of the vicinity (Please keep it going in the future!). In regards to the time extension to February 28th; it's longer than we generally like to see.

However, because a good report should help move the site forward, so that it's not an endless cycle of monitoring, I wanted to approve your request. Please use this email as acceptance of the revised date. Questions? Let me know.

Best,

Mark Detterman

Hi Mark,

1. GESI will be onsite on Tuesday January 25, 2010 to complete semi-annual groundwater monitoring. As requested in your 8/16/10 letter, we have coordinated these activities with Hydro Analysis the consultant for Prime Properties at 580 W. A St. I believe they will be onsite next week also.

We will be sampling all accessible wells.

2. We are still preparing the SCM / preferential pathway study for the project. I realize it is late. We are requesting time extension until 2/28/11.

Thank you,

Joseph P. Schaaf, P.G., C.Hg.
