Subject: Notice of Case Referral; Fuel Leak Case No. RO0000028 and Geotracker Global ID T0600101595, Children's Hospital Oakland, 4701 Martin Luther King Jr. way, Oakland, CA 94609

Dear Mr. Hill:

This is a notice of case referral for the subject site. Alameda County Environmental Health (ACEH) is transferring oversight of the subject case to the San Francisco Bay Regional Water Quality Control Board.

In 1990, three underground storage tanks (USTs) were removed from the site. Sheen was observed both on- and off-site. Grab groundwater concentrations were detected at up to 150,000 ppb TPHd and 24,000 ppb TPHg.

ACEH requested additional work. However, no additional work was performed and no reports were submitted. The groundwater contaminant plume remains undefined. In addition, the consultant has not addressed the 180 degree change in groundwater flow direction.

Please be aware that not all historic documents for the subject fuel leak case may be available on GeoTracker. The complete historic case file for this site is located on the Alameda County Environmental Health website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>.

Should you have any questions, please contact me at (510) 639-1287 or send me an electronic mail message at barbara.jakub@acgov.org.

Sincerely,

Barbara J. Jakub, P.G.
Hazardous Materials Specialist
