Golden Gate Tank Removal

They seem to be charging a lot for the conduit study & well survey. She wants to do work herself how can she get data? Told her her consultant needs to interpret data according to site conditions, contamination, etc, & submit report with graphics. He submitting data would not suffice.

Recc she work with USTCF re: costs for this work as she is in the fund.

She is looking for documentation for her USTCF claim for submittal, can I provide? I was unable to identify what she needed & recc she contact the USTCF for explanation of the documentaiton they need.
