Hi Donna -

I spoke with you about a month ago regarding a letter that was sent to Mr. Thomas Richardson regarding the closure report for the above mentioned properties. When we spoke you mentioned that it appears your files are missing and you were requesting our help to reconstruct those files so we could get this issue closed once and for all. Our contractor, Eler and Kalinowski went back into their archives and dug up their report and several of the letters of correspondence. Please send me your mailing address so that I can send you a copy of the CD containing these files.

We would like to get this matter resolved once and for all.

Regards,
Kristen
