Subject: RE: ARCO 2112/RO 44 Conference Call

Hello Tom,

There is one clarification to your synopsis, and that is that if it is determined that vapor intrusion not a completed or potentially completed exposure pathway, then ACEH will evaluate the case for closure consideration, similar to other BP/ARCO cases in the past. Please note that it does not necessarily mean that the site will close. There may be other issues discovered during the closure process, which may need to be addressed prior to case closure determination.

Sincerely,

Paresh C. Khatri

Subject: RE: ARCO 2112/RO 44 Conference Call
Importance: High

Hello Paresh,

I truly thank you for bearing with us while we have tried since November to set up this conference call regarding ARCO Station 2112 at 1260 Park Street, Alameda, CA (ACEH Case RO44). As you and I have discussed in the recent past one-on-one, Broadbent and BP understand that a negative finding for the question of whether vapor intrusion is a viable pathway for human receptor exposure inside the station building is the last item that ACEH requires prior to processing a case closure certification for the Site. If we can confirm this to be the situation, then BP has authorized Broadbent to proceed with installation and sampling of the soil gas vapor intrusion implants. Therefore, an email reply in the affirmative from you that the above understanding is correct would suffice in lieu of a conference call.

I look forward to hearing back from you at your earliest convenience.

With regards,

Tom Venus, PE

Hi Shannon, Todd, Matt,

Would you be available this afternoon to have the long-awaited conference call with Alameda County Environmental Health regarding Sta.2112? I received a call from Paresh Khatri this morning stating that he and chief of the ACEH LOP, Donna Drogos, would be available to conference via telephone this afternoon, Friday 1/20/2012, at 2pm or 2:30pm.

Please respond to me ASAP so we can get the phone-in logistics dialed-in.

Hi Paresh,

Very sorry if this seems annoying, just trying to schedule a conference call re: ARCO 2112/RO44 in your and Ms. Drogos calendars.

Please let me know what dates/times might be convenient for you and Ms. Drogos.

Hi Paresh,

Still wondering if there is a time slot that we all might have a conference call with you and Ms. Drogos?
