**Subject:** RE: ARCO 2112/RO44 Extension Request

Hello Tom,

Your extension request is acceptable. Donna has not been in this week and I will be out all of next week. Upon my return, I will confirm with Donna during and provide you with a meeting date as soon as possible.

Sincerely,

Paresh C. Khatri

**Subject:** ARCO 2112/RO44 Extension Request  
**Importance:** High

Hello Paresh,

In your letter to BP dated 10/27/2011, you denied our request for case closure consideration for ARCO Station #2112 (ACEH Case RO0000044) presented in the report entitled "Case Evaluation and Justification for No Further Action" (Broadbent, 5/31/2011). In your 10/27/2011 letter, you go on to direct BP to implement the previously-approved soil vapor sampling work plan and submit the first of two vapor intrusion assessment reports by next Tuesday, 12/20/2011.

Since early November, Broadbent & BP have attempted to schedule a conference call with you and your chief Ms. Donna Drogos to discuss this case. This has been very difficult to schedule. After much delay, we finally received an email stating that yourself and Ms. Drogos could discuss the case in a conference call we set up for last week on 12/8/2011. Unfortunately, ACEH canceled the call due to the unplanned office absence of Ms. Drogos. Although early this week we requested to reschedule the meeting, we have yet to hear back from the ACEH.

In the meantime, BP has directed Broadbent to proceed with pre-planning for installation of the soil-gas monitoring implants at Station 2112. A contractor has been competitively selected, the Work Risk Assessment safety meeting has occurred, and the well drilling permit submitted to Alameda County Public Works Agency. However, before implementing the field work, we feel justified in requesting an extension to the 12/20/2011 report due date until after we have had an opportunity to have our conference call with the ACEH concerning this case.

The favor of a reply granting an extension request and scheduling a proposed date for a conference call would be reasonable and appreciated. Please contact me at your earliest availability.

Sincerely,

Tom Venus, PE
