Subject: Re: Ransome Company (RO 49; RB Case 01-1223)

Mark - The area you are inquiring about at 430 Hollis Street in Emeryville was part of a large Brownsfield development project that the Water Board worked on long before I got here in 2002. Good people to talk to about it that still work here are Mark Johnson 622-2493 or Stephen Hill 622-2361. I looked in our file room and couldn't find anything by this case number. I'm we have a file somewhere, just not sure where to find it. I'll forward this e-mail to Mark and Stephen and see if they can help you out. Thanks. Cherie

Sincerely,

Cherie McCaulou

Hi Cherie,

I'm reviewing sites for the Geotracker "Impediments to Closure" review and find that the County case files for this site stop in July 2001 (and shortly thereafter an important review of data was to occur). I suspect (hope?) the review occurred, but under RWQCB direction (??), so wanted to find out if RWQCB files are more current. I think RWQCB files are still in paper form from this era, so I'd need to come over to check the details? And just FYI, there are no files in Geotracker except for a few recent uploads from this year (2009), and the most recent in Envirositor are from 1994.
Thanks in advance!
