Received phone call from Mr. Richard Gold at 8:12am today.

Returned call 1:15 – 1:30 Mr. Gold reports that he no longer owns property; Ms Denise Pinkerton owns. Mr. Gold reports that he received closure from “State” and wells were destroyed thereafter. He reports the previous owner, Mr. Charles Lowe is presumed to have installed the tanks, as it was undeveloped land previously; he should also be noticed. I let Mr. Gold know that it appears that the new owner appears to be conducting further testing / investigation, and that he was noticed as his name will remain associated with the case, as responsibility remains; however, current owner appears to have assumed that responsibility. I request he fill out and return contact sheet so we know his data is good as of this date.
