Thanks Xinggang. The inclusion of the water well and surface water body survey should help move this along faster; however, I noticed that you did not mention the work plan requested for June 15<sup>th</sup> to address the lack of soil vapor. I wanted to make sure you are aware of that and the timeline.

Thanks again,

**Subject:** upload of document to Geotracker for ACDEH Case # RO61

Hi Mark,

The attached groundwater monitoring report for City of Emeryville Fire Station #35 (formerly #2) has been uploaded to SWRCB's Geotracker site.

Thanks,
