**End:** Thu 10/21/2004 11:26 AM  
**Duration:** 0 hours

discussed 1700 Powell street and request for early discontinuation of interim remedial action  
I gave verbal approval to discontinue, based on the ineffectiveness of the interim remedial approach  
there is no sustainable yield from any of the wells  
to further substantiate, URS will send me an email with mass removal calculated (not just gallons of water)  
the email will also specify dates for completion of the offsite investigation, the CAP, and the SCM

the plan is for all reports to come as one 90 days after access agreements are in place (11/20/04)
