Hi Roya, Leah,

Please use this email to document general ACEH concurrence with the requested extension; however, I've used a slightly shorter date of September 21, 2012. Hopefully contracting will be done long before then. I'll update Geotracker shortly. Best,

Mark Detterman

Subject: Extension Request RO 067 (Chevron_Unocal Facility 351780) 1400 Powell Street, Emeryville

Hello Mark,

I am writing to request an extension for submittal of the required Soil and Groundwater Sampling report (currently due July 27, 2012). The property owner will allow us to store drums containing investigation derived waste (non-hazardous soil, groundwater, and PPE) onsite. Because of this, we must coordinate daily pick-up of the drums as waste is generated. To do this, we must pre-profile the waste and ensure that contracts with the waste transport and disposal vendors are completely executed prior to conducting the event. Our original schedule for well installation and sampling next week will be pushed out until waste coordination and set up is complete. We are ***tentatively*** rescheduling the temporary well installation for July 16-17 (Mon-Tues) with subsequent sampling on July 20 (Friday). If the waste coordination can be completed sooner we will attempt to schedule the event for an earlier date.

May we please extend the due date for the Soil and Groundwater Sampling Report until September 27, 2012 (60 days after the tentative July 20 sampling event)?

Thank you for your consideration of this matter. Please let me know if you have any questions.

Thanks,
Roya
