Duration: 0 hours

Received several calls in regards to site from Ramon stating he is owner of site. Discuss potential closure; he has no comments but is surprised that site is contaminated. Discussed closure will be with contamination that appears to meet policy requirements under the State's new LTCP. He has also received a letter from EMC (Chevron EMC?) requesting access to his property. Ask that he send a copy to my attention, but I guess it is likely related to well destruction that must occur prior to case closure. He thought might be a scam.
