Returned VM from Frank Poss of Professional Services Industries (PSI) in regards to this case and status. Looks like closure is pending, but can't find any documentation. Can we clarify? 510.434.9200 x 303

Yes; At the time it looked like closure for the LOP case was appropriate, and it would be specific to the UST only, however, the case is stuck without the return of the List of Landowners Form. If you know who has the authority to sign and return we can activate closure; however, as you noted in your VM, there is a lot of contamination and there is a lot of volatiles, so the risk of VI is apparent and ACEH would require the opening of a VRAP at the same time.
