Dear Mr. Ripley,

I have not yet responded to your work plan in anticipation of the pending Site Conceptual Model (SCM). According to our June 20, 2008 Directive Letter, an SCM and a data gap work plan was due on August 12, 2008, which was later extended to December 12, 2008, as requested. It would be more cost-effective to obtain data (perform site characterization) in one mobilization rather than multiple mobilizations should additional data gaps be indentified in the SCM. When you anticipate the submitting the SCM?

Sincerely,

Paresh C. Khatri

Do you have a response date targeted for responding to the proposed Workplan?

Thank you,

Trent Ripley
