Mr. Khatri,

We are close to finalizing the Site Conceptual Model for this site and will have it submitted shortly. Unfortunately we had some e-mail errors and with the holidays finalizing this is taking a bit longer than we anticipated but we do plan to submit the SCM very soon.

Mr. Khatri,

I wanted to touch base and follow-up with this again. When we spoke last week you said that an extension would not be a problem but I was expecting to have something from you in writing. Our deadline is tomorrow so I would appreciate confirmation of that extension. Thanks.

Mr. Khatri,

Since Green Star did not get your September 8th letter until recently as the point of contact for Greyhound and Green Star has changed, Green Star is requesting a 30-day extension of the November 4th, 2011 deadline stated in your letter. Please feel free to contact me if you have any questions or concerns on this matter. Thank you.

Good Afternoon,

I am one of the project managers at Green Star Environmental and I am now the senior environmental consultant of the Greyhound Project in Oakland. I have reviewed previous correspondence for this site and it seems that

reports are submitted by uploading them to the Alameda County FTP site and to geotracker. Is that correct? I have uploaded two reports to the FTP site and to geotracker. Is there anything else that needs to be done when submitting a report?
