Hi Debra:

I am still in the process of reviewing the case files and document entitled "Revised Site Conceptual Model" dated December 21, 201 and prepared by Green Star Environmental, for the subject site, for closure consideration under the recently adopted California State Water Resources Control Board Low Threat Closure Policy criteria. I hope to have my review completed within 30 days. I will keep you posted if this date changes.

Hi Debra:

I am the new case manager on this site. I haven't gotten a chance to look at the closure request but will put it in the queue.

Mr. Khatri,

I just wanted to touch base and follow-up with you on the closure request that we submitted last year. A Site Conceptual Model report was submitted on 12.22.11 and a groundwater event was conducted in December 2011 and a report documenting that event was submitted on February 14, 2012. Please let me know if you need any additional information from us to process our request for closure. Thank-you.

Mr. Khatri,

Since Green Star did not get your September 8th letter until recently as the point of contact for Greyhound and Green Star has changed, Green Star is requesting a 30-day extension of the November 4th, 2011 deadline stated in your letter. Please feel free to contact me if you have any questions or concerns on this matter. Thank you.

Good Afternoon,

I am one of the project managers at Green Star Environmental and I am now the senior environmental consultant of the Greyhound Project in Oakland. I have reviewed previous correspondence for this site and it seems that reports are submitted by uploading them to the Alameda County FTP site and to geotracker. Is that correct? I have uploaded two reports to the FTP site and to geotracker. Is there anything else that needs to be done when submitting a report?
