Terrance,
Thanks for the project update in our conversation. ACDEH is in agreement that the extension request is acceptable and have updated the delivery date on Geotracker. You can use this email to document the extension of the due date, should it be needed.

Subject: RE: Extension Request (RO#0000074)

Good Morning Mr. Detterman,

Per our conversation on Wednesday April 19, 2017 and due to an unexpectedly heavy travel schedule for myself, I respectfully request a short extension until May 12th, 2017 to submit a Groundwater Monitoring Report as well as the Data Gap Workplan and Focused Site Conceptual Model for the Oakland Greyhound Bus Terminal site. This will allow me to properly review and edit the draft documents and to answer any questions and include any edits from the RP for the site and from our partnered California PG. I appreciate you taking to time to speak with me earlier this week and for your understanding. Please let me know if you have any questions or concerns. I am available by phone and/or e-mail and barring any additional unexcepted changes I should be traveling back to my home office on Monday April 24, 2017. Again I greatly appreciate the bit of extra time.

Sincerely,

Terrance A. Harriman
Geologist/Project Manager

Terrance,
I've updated Geotracker to modify the deliverable date to April 21, 2017 per your request and our conversation. You can use this email to document the extension should it be needed.

Subject: Extension Request (RO#0000074)

Good Evening Mr. Detterman,

Thank you for taking my call earlier this afternoon. I appreciate the time you took to answer my questions concerning your letter dated December 22, 2016 for our site in Oakland, CA (RO#0000074). Per our conversation I would like to request an extension for submittal of the Data Gap Workplan and Focused Site Conceptual Model. At this time we are also working on a semi-annual groundwater monitoring report due April, 21, 2017. Per our conversation I would like to request that we submit the updated Data Gap Workplan and Focused Site Conceptual Model along with the next groundwater report on April 21, 2017.

Again thank you for taking the time to speak with me today and I greatly appreciate the extension. If you have any questions or concerns regarding the site please don't hesitate to contact me.

Sincerely,

Terrance A. Harriman
Geologist/Project Manager
