Re: closure, Eva revised & submitted to me, performing review, anticipate to RWQCB for concurrence 11/02 provided closeable. RWQCB 30 days to concur.

Had to explain closure process multiple times to Mike. He said he has seen LOP closure documents before (summary, certification, ltr) & knows process but needed explanation of process so he can update RP. Said company is likely refinancing site, as refinancing their properties frequently?? I said it appears I need to speak to the RP re: this site & I would like to & requested he have the RP call me directly.

Re: site status he may contact Eva.
