Hello Paresh,

This email is regarding the November 11, 2008 due date for the Subsurface Investigation Report for Fuel Leak Case No. RO0000078 and Geotracker Global ID T0600100106, ARCO #374, 6407 Telegraph Avenue, Oakland, CA 94609, as referenced in the ACEH letter dated September 4, 2008. Due to drilling schedules and the recent due date for the revised Sample Location Figure (September 23, 2008), BAI respectfully requests an extension of the due date for the Subsurface Investigation Report until December 26, 2008. Drilling activities at ARCO Station #374 are tentatively scheduled for the week of November 10<sup>th</sup>, 2008. Should this proposed schedule change meet your approval, a written response would be greatly appreciated. If you have any further questions regarding this Site, please feel free to contact me at your convenience. Take care.

Best Regards,

Jason Duda
