Hello Tom,

Alameda County Environmental Health (ACEH) has completed reviewing the December 26, 2008 "Soil Investigation Report" for the ARCO Station located at 6407 Telegraph Avenue in Oakland (RO0000078).

ACEH understands that upgrade and sampling activities at the subject site was performed in December 2008 under the direction of Oakland CUPA, and that the Dec 26, 2008 "Soil Investigation Report," does not include the most recent sampling data. Therefore, ACEH will postpone issuing a directive letter until all data has been received (in a summary report) and a review has been completed.

Please contact me should you have any questions or concerns regarding this e-mail correspondence.

Best regards,

Paresh C. Khatri
