R079: ONE National Engineers

A Handees

Representing

Mark E Jetterman

ACEH

Terrence McGrath

McGrath Properties

Debra C Coster

McGrath Properties

ACEH

RO79 Oakland National Engravers

January 7, 2010 meeting

10:00 am – 11:45 am

Loan due June 15 – July 1, 2010 (not sure of exact timing; extended once)

Deliverables:

ACEH: February 4, 2010; Review latest work plan; communicate with McGrath Properties to set up meeting week of February 23rd; perhaps with AMEC / Geomatrix to discuss.

McGrath Properties: Early week of January 11; provide loan timelines; so we can reach mutual agreement on timing.

This site fits development exception to Geotracker "Impediments to Closure" Review process.

McGrath Properties believes an approved CAP may address bank's needs; ACEH believes approved CAP with 30-day public comment period is not realistic in June 30-ish time frame. ACEH offers to meet with bank; suggests progress in interim remediation (approved vacuum enhanced FP extraction) might help address some of banks needs.
