Mr. Guha,

Thank you for your call this morning. Please submit all documents to the SWRCB Geotracker website.

Thank you for your cooperation.

Sincerely,
Steven Plunkett

Subject: Geotracker report - Sheehan Property, 845 Pacific Avenue, Alameda

Mr. Plunkett:

Thank you for discussing the above referred site with me. Please find (attached files) the conclusions and recommendations of Additional Site Investigation (Dec. 2002) and Quarterly Groundwater Monitoring and Sampling (Feb.04). We recommended for site closure. Per your request, we will generate an electronic copy of each Quarterly Groundwater Monitoring and Sampling report (in pdf format) by scanning and upload into the State Board's Geotracker data base. We can not provide the electronic LAB and Survey data in edf format for the followings:

1. North State Environmental Laboratory is out of business.
2. Wellhead elevations were surveyed (Oct. 17, 2002) relative to each other from a common datum, but not tied to a benchmark.

Please understand Mr. Sheehan did not receive any financial assistance from the State of California.

He is looking forward to the site closure. Thank you for your kind attention and acknowledgement.

Regards

Tridib Guha, PG
