

1-4-99

Deno Milano of HK₂ said he will submit a workplan in March to address the concerns of my letter dated 12-14-98. He is backlogged on his projects, ~~and~~

5-2-2000

Spoke to Richard Hamilton of HK₂, Inc. / Semco @ 209-524-9653. He said they closed their Bay Area office, and Brett Wheeler of Nor State Environmental has the file and case. Hamilton will contact Wheeler to find out the status of the workplan that this office requested in a letter dated 12-14-98.

9-2-97

Keith Craig said 5 sample borings were drilled,
and soil and groundwater samples taken. ~~Final~~
Report with site map and analytical results will
be submitted within 2 weeks.

Contact Log (845 Pacific)

- 9/27/96 Spoke to Rhonda, SEMCO. Levels of BTEX were noted as fairly high from the 750-gallon UST pit. Levels of benzene are an order of magnitude higher than the Tier 1 table threshold levels for 10^{-4} Risk at residences, in the ASTM RBCA guidelines. Case will therefore be transferred to LOP and a UCR form should be submitted.
- 3/12/97 left message for Mr. Bill Sheehan inquiring about the status of the workplan submittal. Requested that he return my call so that we could discuss plans for w.p. submittal prior to possibly issuing an NOV.
- 3/17/97 Called + left another message for Mr. Sheehan.
- ✓ 3/17/97 Spoke to Rhonda, SEMCO, 415-572-8033, regarding status of w.p. submittal. Rhonda said that they may have forgotten about the workplan submittal because the former project manager, Stan Klementon, left. Will try to get back to me this week.
- ~~3/17/97~~
- 3/18/97 Mr. Sheehan called + left message saying he is working on getting status of w.p. to Comely.
- ✓ 3/21/97 Called Mr. Sheehan + left him message inquiring about timeframe for w.p. submittal.
- ✓ 4/28/97 Keith Craig, SEMCO, called to say that field work will commence on May 2, 1997.
