Subject: RE: Extension Request, Site Characterization & GW Monitoring - Nady FLC#RO0000082

Dear Mr. Jonas and Mr. Shrag,

Due to the difficulty you have had obtaining access to nearby properties, your extension is approved. As you may be aware, the Regional Water Quality Control Board has passed a resolution temporarily reducing monitoring from quarterly to semi-annual. Please begin submitting semi-annual monitoring reports, unless you justify why you wish to continue quarterly monitoring.

Regards,
Barb Jakub

Subject: Extension Request, Site Characterization & GW Monitoring - Nady FLC#RO0000082

Dear Ms. Jakub:

We are requesting an extension to September 1, 2009 to complete additional site characterization and implement modification to the monitoring program at the Nady site, FLC#RO0000082. The modified monitoring program will be performed after new monitoring wells have been installed. The reasons for this extension is difficulty in acquiring access to a nearby property, permitting issues, and, as a result of the USTCF January 28, 2009 letter, payment terms needed to be re-negotiated due to the significant delay in USTCF payments.

Thank you for helping to (hopefully) acquire approved access to the nearby property. Mike Werner is working with you on this.

Thank you for your time.

Sincerely,

Mark Jonas
