Entry Type: Phone call
Company: Oakland Truck Stop

Start: Wed 4/9/2008 11:56 AM
End: Wed 4/9/2008 11:56 AM
Duration: 0 hours

Mr. Saidian called on 4/9/2008. 510-268-0211. Mr. Saidian asked if I could provide advice on the next phase of work and getting bid on next phase of work since proposed scope was rejected by the Cleanup Fund. I could not provide advice but stated that my understanding from discussions with Aqua Science Engineers was that he would be submitting a revised remediation plan that would potentially be more acceptable to the Cleanup Fund. I indicated that I would review the plan based on merit when submitted to determine acceptability to Alameda County. I have no objection to proceeding with a revised plan. He asked me if Alameda County could provide names of other consultants who could prepare a plan. I indicated that Alameda County could not provide advice on selecting consultants. We do not maintain a list of approved consultants. He asked if there were any other sources. I informed him that San Mateo County Environmental Health has a list of consultants. However, the San Mateo list is for information purposes only and does not mean that the consultants on the list are approved or in any way sanctioned by Alameda County. He must do his own research to select a consultant if he plans to change consultants.
