Subject: RE: 3820 San Leandro St., Oakland (Case # RO0000089) - Project Update and extension request

Hello Bob,

Your request for a 60-day extension to submit the work plan is acceptable. As for the well survey request, I did receive an email from Morgan, however, there was no attachment. Once I receive the request, I will sign and return as soon as possible.

Best regards,

Paresh C. Khatri

Subject: FW: 3820 San Leandro St., Oakland (Case # RO0000089) - Project Update and extension request

Paresh,

Pangea is writing to formally notify you that Mr. Kelly Engineer has retained Pangea Environmental Services to assist him with corrective action at the subject site. We are also updating you on the status of work at the referenced site and to request a 60-day extension to July 11, 2008 for submission of the Site Conceptual Model with Preferential Pathway Evaluation & Soil and Water Investigation Work Plan. Quarterly monitoring field work (including backfill well sampling) and preferential pathway study site reconnaissance were conducted at the site on May 7, 2008.

On May 2, Pangea manager Morgan Gillies contacted you about signing and forwarding a well completion release form to ACPWA so we can conduct the required well survey. Did you forward the form to the ACPWA? We have not received the well completion information, and will need it to complete the required well survey. Let us know if you need further assistance with that matter. Thank you.

Bob Clark-Riddell, P.E.
Principal Engineer
Pangea Environmental Services, Inc.
