Re: Guy's Diesel, 3820 San Leandro Street, Oakland, CA 94621

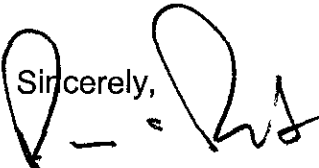

Dear Mr. Chan:

As you may recall, I represent Kelly Engineer. I understand that you have raised concerns about the tank closure report submitted by ACRC, Inc., the contractor that removed and replaced the tanks at the above-referenced location. I understand that, in addition to the report not being signed by ACRC, Inc., you were concerned that the report did not confirm that the soil removed from the station was properly disposed of.

I am transmitting herewith a group of documents that I obtained from Forward, Inc., the company that was hired to remove and dispose of the soil at the above-referenced station. These documents are part of a larger group of documents that included documents pertaining to soil removed from the service station in Concord, California. The accompanying documents are all of the documents provided by Forward, Inc. relating to the above-referenced station. You will note that there are numbers on each document (eg., TAC-0018). These are Bates stamps that were placed on the documents by counsel for Forward, Inc. The documents are not in sequence, as the Concord station documents were intermingled with the Oakland station documents and were culled out at the request of Susan Torrence, during recent court proceedings. I am following up with counsel for ACRC, Inc. regarding the tank closure report and am enclosing herewith a copy of my letter to counsel for ACRC, Inc.

In reviewing documents produced in litigation with Brunsing Associates, Inc., I found documents signed by you and Herman Gomez, Hazardous Materials Inspector, City of Oakland, acknowledging receipt of Brunsing's soil and groundwater investigation work plan, and April 9, 1999 soil and groundwater work plan for additional sampling and monitoring, which both reflect Brunsing's understanding that contaminated soil from the site was stockpiled, tested, and transported to Forward, Inc.'s licensed Class II landfill. If those documents have been misplaced, I can provide copies to you.

Please do not hesitate to call, or have Susan Torrence contact me, if I can be of further assistance.

Sincerely,

PAUL S. ROSENSTEIN

PSR/m

LITY REQUIREMENTS

FORWARD INC. LANDFILL

Forward shall have no obligation to accept the waste if weather or other conditions impair the safe and effective disposal of the waste or if the waste impairs the safe and effective operation of the Landfill. Forward shall use reasonable efforts to promptly notify Disposer of its inability to accept the waste for any reason. If Forward's refusal to accept the waste is based on weather or other site conditions, Forward shall notify the Disposer when site conditions are expected to change such that Forward will be able to accept the waste.

FORWARD INC. LANDFILL

Forward shall have no obligation to accept the waste if weather or other conditions impair the safe and effective disposal of the waste or if the waste impairs the safe and effective operation of the Landfill. Forward shall use reasonable efforts to promptly notify Disposer of its inability to accept the waste for any reason. If Forward's refusal to accept the waste is based on weather or other site conditions, Forward shall notify the Disposer when site conditions are expected to change such that Forward will be able to accept the waste.

Certified Analytical Report

Soil Sample Analysis:

Test	#5	Composite (A,B,C)	Composite (D,E,F)	Units	PQL	EPA Method #
Sample Matrix	Soil	Soil	Soil			
Sample Date						
Sample Time						
Lab #	E1906	E1907	E1908			
DF-Diesel	10	20	20			
TPH-Diesel	510	1,700	1,200	mg/kg	1.0 mg/kg	8015M
DF-Gas/BTEX	62	25	25			
TPH-Gas	130	260	750 ²	mg/kg	1.0 mg/kg	8015M
Benzene	0.82	0.16	0.14	mg/kg	0.005 mg/kg	8020
Toluene	0.42	0.40	0.34	mg/kg	0.005 mg/kg	8020
Ethyl Benzene	2.2	1.0	1.5	mg/kg	0.005 mg/kg	8020
Xylenes	8.6	4.2	7.0	mg/kg	0.005 mg/kg	8020

- DLR=DF x PQL
- DF=62
- Analysis performed by Entech Analytical Labs, Inc. (CAELAP #2224)

Michael N. Golden, Lab Director

DF=Dilution Factor
DLR=Detection Reporting Limit

PQL=Practical Quantitation Limit
NI=None Detected at or above DLR

QUALITY CONTROL RESULTS SUMMARY

QC Batch #: DS980105

Matrix: Soil

Units: mg/Kg

Date analyzed: 01/16/98

Date extracted: 01/16/98

Quality Control Sample: E1663

PARAMETER	Method #	MB	SA	SR	SP	SP	SPD	SPD	RPD	QC LIMITS	
		mg/Kg	mg/Kg	mg/Kg	mg/Kg	%R	mg/Kg	%R	RPD	%R	
Diesel	8015M	<1.0	25	ND	19	77	20	80	3.1	25	50-150

Note: LCS and LCSD results reported for the following Parameter:

None

Acceptable LCS and LCSD results are reported when matrix interferences cause MS and MSD results to fall outside established QC limits.

Definition of Terms:

MB: Method Blank

na: Not Analyzed in QC batch

SA: Spike Added

SR: Sample Result

RPD(%): Duplicate Analysis - Relative Percent Difference

SP: Spike Result

SP (%R): Spike % Recovery

SPD: Spike Duplicate Result

SPD (%R): Spike Duplicate % Recovery

NC: Not Calculated
