Subject: Deadline Extension Request - RBCA Risk Assessment
106/110 Hegenberger Road
Oakland, California

Dear Mr. Chan:

Pursuant to our telephone conversation on April 15, 1996, Philip Environmental Services Corporation (Philip) is submitting this request, on behalf of Ms. Deborah David, to extend the deadline to conduct a risk assessment for the above referenced site to May 30, 1996.

The scope of this work, originally requested in your correspondence to Ms. David on January 19, 1996, is to evaluate the risk that residual soil and groundwater contamination poses at Area 4, using the American Society of Testing and Materials standard for Risk Based Corrective Action, ASTM E-1739-95.

The reason for this extension, as we discussed, is that scheduling conflicts were encountered at Philip during March and April that compromised the completion of the project by the due date. The requested extension will allow sufficient time to complete the report and have Ms. David review the risk assessment prior to its submittal to the Agency.

We look forward to receiving your approval on this extension and working with you on this important project. Please call me at (510) ~~420-7910~~ if you have questions. Thank you for your assistance on this matter.

556-1851

Sincerely,

PHILIP ENVIRONMENTAL SERVICES CORPORATION
