

3/13/95 R+A Trucking Meeting w/ D. Robinson

- Will destroy existing well
- Place new in same location of boring
- Include the analytical results for the boring w/ new MW installation report.
- Should receive a revised WP
- need records of soil + water disposal

AB+I

- Okayed discontinuing springs of MW 3 + MW 1
- AB+I will provide MSDS sheet and/or volatiles analytical data for asphalt
- will cont to monitor MW 2 + 4
- will install another MW downgradient to MW 4 + cross grad to MW-2.
- look for both TPH₉ + BTEX + OHE'S

3/24/95
Spot D. Robinson re: gradient
+ need / no need to install another
well. May just need to add CMC
+ other parameter S to MW 3 & 3+4.

Dave promised info by next Friday
3/31/95.
