Eagle Gas
4301 San Leandro Street
Oakland, CA

Clearwater Group Project No. ZP046K

Dear Mr. Wickham,

Clearwater Group requests an extension until January 23, 2008, for submittal of the Well Installation Report, as requested in your letter dated September 4, 2008. Clearwater is preparing a letter "Proposed Modifications to Work Plan" which presents Clearwater's proposed modifications to the DPE Trench design, addressing ACEH concerns that the seal of the DPE trench was too shallow. Clearwater will perform the DPE Test once the "Proposed Modifications to Work Plan" has been approved. We are also awaiting the surveyor's report for submittal of the well installation report. Both of these reports must first be send to the responsible party, for him to complete and return a Perjury Statement to Clearwater, prior to submitting these reports.

Please contact me by email or at 510-307-9943 extension 237, if you have any questions or concerns.

Sincerely,
Clearwater Group

Robert L. Nelson, PG, CEG
Senior Geologist
