Subject: Fuel Leak Case No. RO0000101 and GeoTracker Global ID T0600101099, Port of Oakland /
Kaiser & Powerine Oil / Berth 30, 2800-2801 7th Street, Oakland, CA 94607

Dear Ms. Heinze:

Alameda County Department of Environmental Health (ACDEH) has completed a compliance review for the subject case and understands that Port of Oakland staff oversight may have recently changed. At this time, ACDEH is requesting a meeting at our office introduce ourselves to Port of Oakland staff and to discuss the status of this case.

We are available on the following dates and times:

- Monday, July 10, 2017 at 10:00 am
- Wednesday, July 12, 2017 at 1:00 pm
- Monday, July 17, 2017 at 10:00 am

Please select a date and time from above that is convenient for you and contact me at keith.nowell@acgov.org or at 510-567-6764 to confirm our meeting. If you are unavailable during the above-listed dates and times, please propose a date and time that is convenient for you and we will try to accommodate your request.

Additionally, our review of the case files revealed only two documents have been submitted to the State Water Resources Control Board's (SWRCBs) Geotracker website, thus rendering the site to a non-compliant status pursuant to California Code of Regulations, Title 23, Division 3, Chapter 30, Articles 1 and 2, Sections 3890 to 3895. Both submittals are closure requests (RFCs) dated April 8, 2014 and prepared by Arcadis U.S. Inc. (Arcadis) for the subject site. Acceptance of these documents have been pending RO0000059/ RO0000101/ RO0002766 case file resolution. The RFCs will be accepted following our meeting and need not be re-submitted. Prior to our meeting we request you upload other site documents- including GEO_REPORTS, EDFs, GEO_MAPs, and GEO_BOREs- to bring the case in to compliance with state regulations.

Thank you in advance for your cooperation and we look forward to with you to expeditiously advance this case towards case closure.

Sincerely,

Keith Nowell, P.G., C.HG

Responsible Party(ies) Legal Requirements / Obligations

REPORT REQUESTS

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

ELECTRONIC SUBMITTAL OF REPORTS

Alameda County Department of Environmental Health's (ACDEH) Environmental Cleanup Oversight Programs, Local Oversight Program (LOP) and Site Cleanup Program (SCP) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program File Transfer Protocol (FTP) site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) GeoTracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and other data to the GeoTracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to SCP sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in GeoTracker (in PDF format). Please visit the SWRCB website (http://www.waterboards.ca.gov/water_issues/programs/ust/electronic_submittal/) for more information on these requirements.

ACKNOWLEDGEMENT STATEMENT

All work plans, technical reports, or technical documents submitted to ACDEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I have read and acknowledge the content, recommendations and/or conclusions contained in the attached document or report submitted on my behalf to ACDEH's FTP server and the SWRCB's GeoTracker website." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS

The California Business and Professions Code (Sections 6731, 6735, and 7835) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately licensed or certified professional. For your submittal to be considered a valid technical report, you are to present site-specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature, and statement of professional certification. Please ensure all that all technical reports submitted for this case meet this requirement. Additional information is available on the Board of Professional Engineers, Land Surveyors, and Geologists website at: <http://www.bpelsg.ca.gov/laws/index.shtml>.

UNDERGROUND STORAGE TANK CLEANUP FUND

Please note that delays in investigation, late reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

AGENCY OVERSIGHT

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.
