Subject: RO101- TraPac Geotechnical Investigation, Berth 25-26
Attachments: Full page photo.pdf; 2800 7th st Work Plan.pdf; HollowStemAuger Drilling.pdf; TraPac Berth 24 25 32 HASP.pdf

Dear Mr. Englehart,

As you are aware, AECOM has been engaged to perform a geotechnical investigation on Port of Oakland (Port) property for the TraPac facility at Berth 25-26. The bores are identified as SB-1 and SB-2 on the attached figure entitled *Full Page Photo*. At least one of the proposed boring locations is in the vicinity of an open case under the oversight of Alameda County Department of Environmental Health (ACDEH). The case is the Port of Oakland / Kaiser & Powerine Oil / Berth 30, 2800-2801 7th Street, ACDEH case number RO0000101 and GeoTracker Global ID T0600101099.

Attached are documents provided to our agency regarding the work scope proposed by AECOM. ACDEH requests the Port, and at your discretion your environmental consultant, review the scope of work. ACDEH requests that you provide a letter to ACDEH indicating if the advancement of the borings will cause drag-down, cross contamination or if the investigation will adversely affect the subsurface conditions at the site. The drilling permit application is on hold pending your response.

Please indicate if you or your representative will be present to observe field activities.

Thank you for your cooperation. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Respectfully,

Keith Nowell
