Ben,
I did want to followup on my email from yesterday relaying your message to the RWQCB. The unfortunate thing is that while I could comment and request information or actions, because it came from the former oversight agency, it would not carry any weight and would not be sufficient to be accepted by the USTCF. Hopefully you'll be able to get a response from the RWQCB.
Good luck,

Mark Detterman

Subject: RO#0107 Report Uploads

Dear Mark,

Environmental Restoration Services has uploaded two workplans to the County database (and Geotracker) for remedial action and investigative work that we would like to perform this year at the subject site (4919 Tidewater Ave.) on behalf of RWL Investments Inc.(DiSalvo Trucking). I am aware that the oversight for this case is in the process of being transferred to SF-Bay RWQCB. However, we would like UST Cleanup Fund allocate funds for this next fiscal year and would appreciate any comments the County may have regarding the proposed work.

I know that your workload is strenuous. Bob Lawlor of RWL is now aware of the need to investigate/correct any fugitive contaminate migration toward the Bay, but lacks the financial resources at this time to further investigate and take the necessary corrective action, and therefore is seeking these funds from the State.

Thank you very much for your time Mark,

Ben Halsted
