Mr. Jeff Delgado of the CUF call regarding the status of the Osagie Property- RO117. As work apparently stopped in mid-2010. I reviewed the case file with him- apparently ACEH approved the FS/Cap (4-22-2010) with a comment regarding the properties of the backfill material. No other reports were received after the FS/CAP. I told Mr. Delgado the site was a candidate for a letter requesting the site status. He said the RP was requesting money from the CUF. He said he'd hold off with a response until my letter. I said it would be at least 2 weeks out but that I'd would keep him apprised of the status.
