

CONTACT LOG (999 San Pablo, Albany)

11/03/99

Called Danyk Aitche, Cambria Environmental, (570) 420-3339 and left him message inquiring as to what the status of the site is & why delineation of the MTBE contamination was never delineated. Requested that he return my call.

11/08/99

Called Chuck Haddler, RWQCB, and discussed site. Mr. Haddler agreed that the MTBE should be further delineated/characterized off site, even though the site does not appear to be a vulnerable site and the levels do not exceed Ravi A's surface water threshold values.
