Dear Mr. Detterman:

Thank you for contacting me. Timely as it happens, since we have prepared a site investigation report, updating the site conceptual model and we are requesting closure for the Site. We will be uploading that report to Alameda County and GeoTracker on Monday. Data obtained during January 2013 monitoring, monitoring well samples taken May 2013 and site investigation results are included in the report.

I look forward to discussing the site with you at your convenience.

Ellen.
