Dear Ms. Satterly and Ms. Champion-Braig,

ACEH has reviewed the *Additional Site Investigation Work Plan* dated May 25, 2012 and *Site Investigation Report* dated February 1 2012, which were prepared by Taber Consultants for the subject site. Rather than complete the proposed investigation, ACEH would like to ensure that all remaining data gaps are addressed and evaluated against the Low Threat Closure Policy. In order to do this, we request that you submit the Site Conceptual Model that was requested in the October 29, 2010 letter. The SCM is expected to serve to identify data gaps at the site which should be addressed in a comprehensive work plan.

- Please submit the Site Conceptual Model with updated work plan by **February 28, 2013**.

Regards,
Barbara Jakub, P.G.
