Subject: RE: RO134,

The Pilot test is not approved at this time. As stated below I will review the document within 60 days. I will respond after the review has been completed.

Regards,
Barb Jakub

Subject: Re: RO134,

Noted Barbara. Since you generally approved the IRAP workplan and approved the pilot test well installations (one injection and one observation well), I was unclear whether the pilot test remained un-approved pending the investigation report or whether we are approved to move forward with the oxygen injections following well installations. Please clarify.

We will look for your comments on our responses and thanks.
