Subject: RE: Well Permits for 210 Grand Ave, Oakland (MW-7, MW-8, MW-9)
Attachments: 210 Grand ave map.pdf

Hi Eva,

In 1997, Alameda County Public Works Agency took over the groundwater permits jurisdiction from Zone 7 Water Agency in the City of Oakland. The Public Works Agency however have no actual copies of the permits from approximately 1968 to 1997, just the permit records (see below). Appears that in 1989, three permits were issued (Permit 89012 geotechnical investigation, Permit 89115, 89561 both for monitoring wells). Then in 1990 permit 90088 was also issued for monitoring well and appears that a monitoring well was also destroyed in 1991 under permit 91642.

I would say permit were issued, but we just don't have copies from this time period. If need be, I can provide you a letter saying that a permit was issued, but that we do not have a copy of the permit, if that would work. You can also use this email if you like.

I am off tomorrow, but will return on Monday, November 27th.

James

Subject: Well Permits for 210 Grand Ave, Oakland (MW-7, MW-8, MW-9)

Hi James,

We have been tasked by Alameda County Department of Environmental Health with collecting groundwater samples at a former Chevron site located at 210 Grand Ave., in Oakland, California (directive letter attached).

The three wells in which need to be accessed for sampling are MW-7, MW-8, and MW-9 (see attached figure). Because these wells were installed in the City Right of Way, the City of Oakland is requiring a copy of the Alameda County Well Permit to attach with the request for access to sample. I am not sure of the installation date but I have the first sampling date as July 1990. Would your office have a record of the well permits issued in 1990? If not, could you suggest another avenue to pursue to get copies of the permits.

Regards,

Eva

Hi Carryl,

Attached is a PDF of the e-mail chain. If you would like, we can schedule a 4Q event to monitor and sample well 4, 5 and 6...

Hi Michael

The attachment was blank, would you mind forwarding that email again.

I don't recall why we did not sample wells 4,5 and 6, in 4th quarter, possibly oversight on our part after not getting anywhere with the permits.

Let's keep this site scheduled for 2nd quarter and we (Eva and I) will provide an update to the agency after we obtain further information on where we are with the permits.

Thanks
Carryl

Hi Eva,

This site has not been scheduled because we need a copy of the well installation permit to be able to attach to our permit application to access wells MW-7, MW-8 and MW-9. I have attached the e-mail string of the conversation I had with the previous lead consultant regarding the well installation permit.

Please let me know if there is anything else I can help you with.

Thanks Eva

Hi Eva, let me forward this message to Mike Chalender who knows more about the site status than myself.

Mike, please elaborate on the status of Oakland 9-0019. Thank you.

Jennifer,

I see that site 90019 is supposed to be scheduled in the 4th quarter but does not have a date yet. Do you need information from me to get that on your calendar?

Eva

Hello everyone,

The sites listed below have been reassigned accordingly. As confirmation attached is your current project list and SIS's (Site Information Sheet, i.e., scope of work) that are managed by Carryl MacLeod (CM) for your reference.

Please note the sites highlighted below in **yellow** are not a G-R site, the sites in **green** are either inactive, closed or discontinued.

Eva and Stephen, can you please provide me with your contact information so I can add you into our database...I would greatly appreciate it.

Should you have any questions, please let me know. Thank you everyone!

Michael,

There have been some changes to my portfolio and I would appreciate if you would send out SIS to the new PM's and current PM's managing my sites. Please cc me on each set sent out.

I have listed all the PM's and the list of sites, which may or may not have M&S going on (I apologize for not sorting it).
