Subject: RO138; Chevron 9-0517 / Homestead Federal Savings; Meeting Followup and Report Submittal Extension

Carryl and Alexis,

Based on the discussions in the meeting held at ACEH on May 8, 2014, ACEH is in agreement that an extension of the submittal of the final report to September 5, 2014 is appropriate. This is expected to allow inclusion of indoor and outdoor air sampling, if required. Should indoor and outdoor air sampling be required, a work plan addendum to refine this scope of work, as discussed in the May 6, 2014 directive letter, would require an extension to August 1, 2014. These dates will be updated in Geotracker shortly.
