Bob Clark-Riddell called re Broadway site saying that he would like to perform on-site soil gas sampling. He said to hold off on reviewing his work plan as he will be submitting an addendum WP to include the onsite soil gas sampling. The remedial system has been shut down for about 6 months and they are seeing some rebound effects. Bob C-R indicated he'd recommend sampling locations based on the proposed development foot print. He referred to the project as Broadway so that should mean RO139 - Mehdizadeh Property.
