I returned a voicemail from Bob Clark-Riddell re RO139-- Mehdizadeh Property- 5175 Broadway, Oakland CA. Mr. Clark-Riddell indicated he was missing the window for re-starting the DPE at the site and the thought of waiting the 2 weeks to respond to my directive letter would mean he'd miss it entirely. I indicated my directive letter would request additional remediation. A short-term DPE system re-start to evaluate the system ability to remove significant COCS would be considered, as long as there would be a provision for more aggressive remediation should the DPE system appear to fall short of objectives. All remedial efforts would require post-remediation monitoring and needed to be incorporated into the project schedule. I said I thought a short-term DPE system re-start could be part of the remedial activities.
